Profile

Software engineer who builds web and mobile products end to end, from the first screen to App Store and Play Store release. Works across React, Next.js, React Native, Expo, Node.js and TypeScript, with backends on Cloudflare Workers. Started in music media in 2018, founded a music company in 2019, and moved fully into tech in 2021. Has shipped products across EdTech, FinTech, HealthTech, e-commerce (B2B and B2C), hospitality, events, government, automotive, agriculture and music, both independently and in teams.

Experience

CogSolins (Cognitive Solutions Inc.) · Co-founder

Present

- **HostCam** (shipped): an event app and disposable camera in one. Guests shoot and upload into shared folders, a photo book and a gift wallet. Built the Expo app, guest web, admin and backend (Cloudflare Workers, Hono, Drizzle, D1, R2), including the wallet ledger.
- **VirtualProf** (currently building): an AI study companion that turns lecture notes, syllabi and past questions into structured lectures, audio summaries, study schedules and mock exams.

Azany Inc · Mobile Developer

Oct 2025 – Present

- Build React Native apps in the team for business-to-business and business-to-customer products across sectors.
- ShopAzany (cross-border B2C e-commerce), ShopAzany B2B (wholesale), AgriecomB2B (agricultural products) and Azany Autos (car marketplace).
- Fintech: MIV (My Island Visa card) and AVC (African Vision Card), with virtual and physical cards, spending limits, tiered KYC, biometrics and PIN.
